

IN THE CLAIMS:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Sub B1
1. (Currently amended) A view finder comprising:
an organic EL display element; and
an optical element for magnifying an image of an object displayed on said organic EL display element.

AI Cont
2. (Currently amended) A view finder according to claim 1 wherein said organic EL display element is a liquid crystal display element comprises plural thin film transistors formed over a substrate.

3. (Currently amended) A view finder according to claim 1 wherein said organic EL display element is an organic EL display element comprises a pixel portion and a driver circuit formed over a substrate.

4. (Original) A view finder according to claim 1 wherein said view finder is incorporated into a camera selected from the group consisting of a video camera and a digital camera.

5. (Currently amended) A view finder comprising:
an organic EL display element; and
a plurality of optical elements for magnifying an image of an object displayed on said organic EL display element.

6. (Currently amended) A view finder according to claim 5 wherein said organic EL display element is ~~a liquid crystal display element~~ comprises plural thin film transistors formed over a substrate.

7. (Currently amended) A view finder according to claim 5 wherein said organic EL display element is ~~an organic EL display element~~ comprises a pixel portion and a driver circuit formed over a substrate.

8. (Original) A view finder according to claim 5 wherein said view finder is incorporated into a camera selected from the group consisting of a video camera and a digital camera.

9. (Currently amended) A view finder comprising:
an organic EL display element; and
an optical element for magnifying an image of an object displayed on said organic EL display element and projecting it upon an eye of a user.

10. (Currently amended) A view finder according to claim 9 wherein said organic EL display element is ~~a liquid crystal display element~~ comprises plural thin film transistors formed over a substrate.

11. (Currently amended) A view finder according to claim 9 wherein said organic EL display element is ~~an organic EL display element~~ comprises a pixel portion and a driver circuit

formed over a substrate.

12. (Original) A view finder according to claim 9 wherein said view finder is incorporated into a camera selected from the group consisting of a video camera and a digital camera.

13. (Currently amended) A view finder comprising:

an organic EL display element; and

a plurality of optical elements for magnifying an image of an object displayed on said organic EL display element and projecting it upon an eye of a user.

14. (Currently amended) A view finder according to claim 13 wherein said organic EL display element is a liquid crystal display element comprises plural thin film transistors formed over a substrate.

15. (Currently amended) A view finder according to claim 13 wherein organic EL display element is an organic EL display element comprises a pixel portion and a driver circuit formed over a substrate.

16. (Original) A view finder according to claim 13 wherein said view finder is incorporated into a camera selected from the group consisting of a video camera and a digital camera.

5 What is claimed is:

1. A view finder comprising:

a display element; and

an optical element for magnifying an image displayed on said display
element.

10

2. A view finder according to claim 1 wherein said display element is a
liquid crystal display element.

3. A view finder according to claim 1 wherein said display element is an
15 organic EL display element.

4. A view finder according to claim 1 wherein said view finder is
incorporated into a camera selected from the group consisting of a video camera
and a digital camera.

20

5. A view finder comprising:

a display element; and

a plurality of optical elements for magnifying an image displayed on
said display element.

25

6. A view finder according to claim 5 wherein said display element is a liquid crystal display element.

7. A view finder according to claim 5 wherein said display element is an
5 organic EL display element.

8. A view finder according to claim 5 wherein said view finder is incorporated into a camera selected from the group consisting of a video camera and a digital camera.

10

9. A view finder comprising:
a display element; and
an optical element for magnifying an image displayed on said display element and projecting it upon an eye of a user.

15

10. A view finder according to claim 9 wherein said display element is a liquid crystal display element.

11. A view finder according to claim 9 wherein said display element is
20 an organic EL display element.

12. A view finder according to claim 9 wherein said view finder is incorporated into a camera selected from the group consisting of a video camera and a digital camera.

25

13. A view finder comprising:
a display element; and
a plurality of optical elements for magnifying an image displayed on
said display element and projecting it upon an eye of a user.

5

14. A view finder according to claim 13 wherein said display element is
a liquid crystal display element.

15. A view finder according to claim 13 wherein said display element is
10 an organic EL display element.

16. A view finder according to claim 13 wherein said view finder is
incorporated into a camera selected from the group consisting of a video camera
and a digital camera.

15
